Zeento Crack Free Download [Win/Mac] [Updated]

Zeento Crack Keygen is an advanced and reliable application designed to allow you to share all your documents, movies, pictures, directly from your hard drive with your friends over the Internet. While it's easy to share some files with friends over the Internet, the problem comes with the fact that your whole folder is actually uploaded to the selected account and whoever gets access to your mail can take the files and see them. That's why we decided to build an application that doesn't upload the whole folders, only the particular documents you want to share. Zeento Free Download offers the following advanced features: * Manage and share your data with friends over the Internet! * Connect to the Internet with one click * Get direct access to the documents in your hard drive * Remove temporary folders (Temp and TempBackup) * Manage the shared files with ease! * Manage the shared folders with ease * Quick sharing of your files * Enable and disable the sharing with others! To share your files you just have to: * Search your files in the shared folders * Zoom in and out on the shared folders * Access the shared folders * Change the display in the online section * Change the display in the main interface * Change the display in the menu * Select the preferred method of sharing (Copy and Paste or Zip) * Switch to the account * Display the number of files shared with others * Delete shared files * Share temporary files with others * Share the temp folder with others * Delete the temp folder You may also: * Share the document formated with.RTF * Share the document formated with.DOC * Share the document formated with.pdf * Share the document formated with.txt * Share the document formated with any type of.zip * Enable and disable the sharing with the others * Share the files in the temporary folder * Share the files in the temporary folder * Share the folders in the temporary folder * Import the files with the WinZip software * Export the shared files with the WinZip software * Share files with the online storage services * Import and export a file to and from the online storage * Create a shortcut in your desktop * Export the shared files * Upload the shared files * Import the shared files * Open the shared files * Open the shared folders * Open the shared folders * Share a file in background without disconnecting

What's New in the Zeento?

Zeento is a Shareware for sharing all your documents, movies, pictures, directly from your hard drive. Looking for the Zeento? Zeento is a simple application designed to enable you to share all your documents, movies, pictures, directly from your hard drive with your friends over the Internet. Is Zeento for you? Zeento is easy to use, intuitive and reliable. You decide who gets access to your documents, movies, pictures, directly from your hard drive. Zeento is a robust version of the popular application DropBox. The main difference between DropBox and Zeento is that DropBox can only be used to share one document at a time, while Zeento can be used to share multiple documents, video, audio and images. Zeento has many new features: Zeento has a simple and easy to use web interface Zeento allows you to specify a list of email addresses who should get an email with all the links to the shared files Zeento allows you to save favorites to get the files much faster, even if you have not shared the file. You can either do that once for the moment or save your favorites for later access. Zeento allows you to share your resources directly to other applications Zeento allows you to organize your shared folders into tabs. If you need to share only a folder with your friends, you can do that by defining a list of email addresses. Zeento allows you to create any number of resources and organize them into tabs. It's a very useful feature for those who are looking for a better way to manage their shared resources. Zeento allows you to create a flash memory card How to install Zeento? To install Zeento : Go to www.zeento.net Click on the down-arrow next to the number "4" in the toolbar and a popup menu will appear Select "DOWNLOAD". Install Zeento into your hard drive Start Zeento Enter your login information, click the "Sign In" and follow the instructions. The link "Create your account" will be displayed. That's it! You can now start sharing your files over the Internet. Please remember that Zeento is not certified and as such you should be careful. Why Zeento? Zeento is a file sharing program for the people who like sharing and for the people who like sharing at the same time. You can see here more about Zeento. Zeento
